

Grosmont Future News: May 2021

April has again been a busy month. Grosmont Futures meet at least once a fortnight via Zoom with feedback from sub-groups analysing the data from the Community Hub questionnaire and others finding information that may be useful to the project or further Grosmont Future projects.

Thanks very much to everyone who took the time to complete the questionnaire – we had 98 replies in the end which was a fantastic response. We are using the data to develop a project plan, a copy of which can be seen on the display in the Town Hall Undercroft. We are hoping to submit the various grant applications during the latter part of 2021 and then, if successful we aim to start work in 2022. Grosmont Futures will continue to provide updates on the project each month via the Church Link or if you'd like to speak to someone you can contact Lynne Potter (Joint Chair) on 240350.

We had these fabulous entries in the Children's Competition:

The presentation of the prizes will take place after the 17th May when, all being well, the Covid restrictions should be lifted further. Details will be available shortly via a poster, Facebook, Grosmont Website and the display boards in the Town Hall undercroft. Due to Covid there will be restriction on numbers, so we will be keeping it low key. But hopefully in July there will be a larger community event where: the prize draw for the questionnaire will take place; more information from the outcome of the questionnaire data analysis will be available together with the resulting project plans; a collage of the children's winning designs can be viewed and where we can once again come together to share ideas and celebrate, within the Covid guidelines at that time.

Please feel free to join GF meetings the Agenda of which will be found on the Grosmont Future Page on the Grosmont website, a couple of days before the meeting together with the Zoom link for that meeting.
