

## Grosmont Futures (GF) and the Grosmont Community Hub Project update May 2022

It's been a while since the last update, but as you can appreciate everything takes time.

We have a Partnership Agreement between GF and Grosmont Fawr Community Council (GFCC) that has been accepted by the Lottery funder, which in turn has released an initial £14,000, which allows us to commence planning of the work.

We have appointed an Architect, Sarah Brown, from Monmouth, who will now prepare and produce plans which will be available to the community in the not too distant future.

We also have on board a Project Manager, Peter Clarke, who will help to co-ordinate repairs and the new work to develop the Town Hall into our Community Hub.

At the moment, we are discussing a relevant project so that we can make a new bid for another Green Energy Grant. We now have 3 quotes for an Audio Visual system that we will be able to get, after a successful bid with the Green Energy Fund last year, which will provide sound, music and films for future events and meetings.

Grosmont Futures is looking forward to a very fruitful partnership with the new council.

This is a very exciting time and shortly we will want your input about the plan/s that the Architect produces, and also the activities the Hub is proposing. Remember, this is your Town Hall and your Project so please, when the time comes, come along and tell us what you think and what is important to you!

Please share your views, questions and suggestions about the project via GF email address [Grosmont.Futures@outlook.com](mailto:Grosmont.Futures@outlook.com) at any time and we will get back to you asap.
